A continuous tray sealer machine (Only Sealing) is an automated packaging system designed to seal food or medical trays with a secure film cover. It operates continuously, enhancing production efficiency by sealing multiple trays in a fast, consistent process. It seals the top film with the tray and trims the excess film from the tray for the better aesthetics and consistent sealing quality.

The continuous tray sealer offers customizable Tray options, ensuring secured sealing and optimal product freshness.

The application is to preserve foods like sweets, dairy products, meat, seafood, dates, dry fruits & convenience foods etc.
