

AUTOMATIC BULK VACUUM PACKING MACHINE

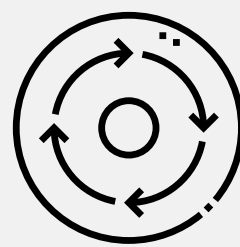

AUTO-VACCON
series

**Advanced Vacuum
Technology**

**Automatic
Weighing**

**Consistent
Quality**

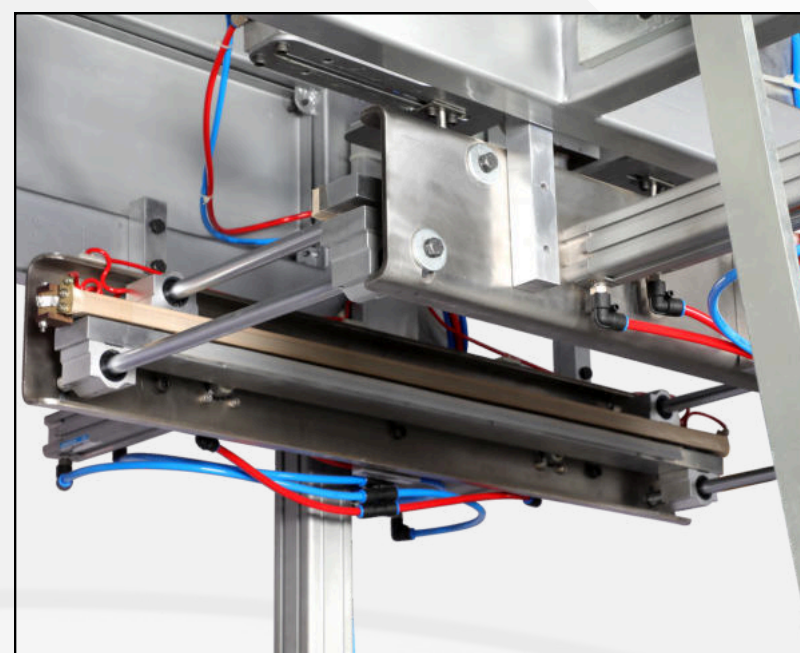

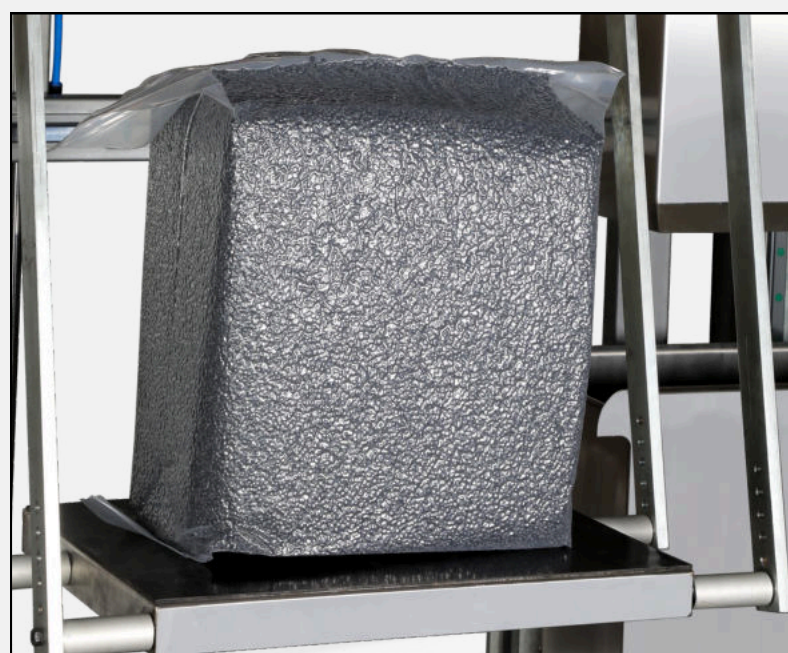

**Secured
Sealing**

**Longer
Sealing Bar**

**Up to
50 Kg Weight**

A fully automatic bulk vacuum packing machine is a high-capacity system designed to efficiently vacuum seal large quantities of products in bulk. It offers precise control over vacuum levels and sealing, ensuring extended shelf life and protection against contamination.

The fully automatic bulk vacuum packing machine features an advanced sensor-based vacuum control system, ensuring optimal air removal for maximum product freshness and preservation.

The application is to vacuum various products like commodities, pulses, granules, etc.

Easy to Operate

Designed with simplicity, our machine features an intuitive smart interface and straightforward controls, ensuring easy operation for all experience levels.

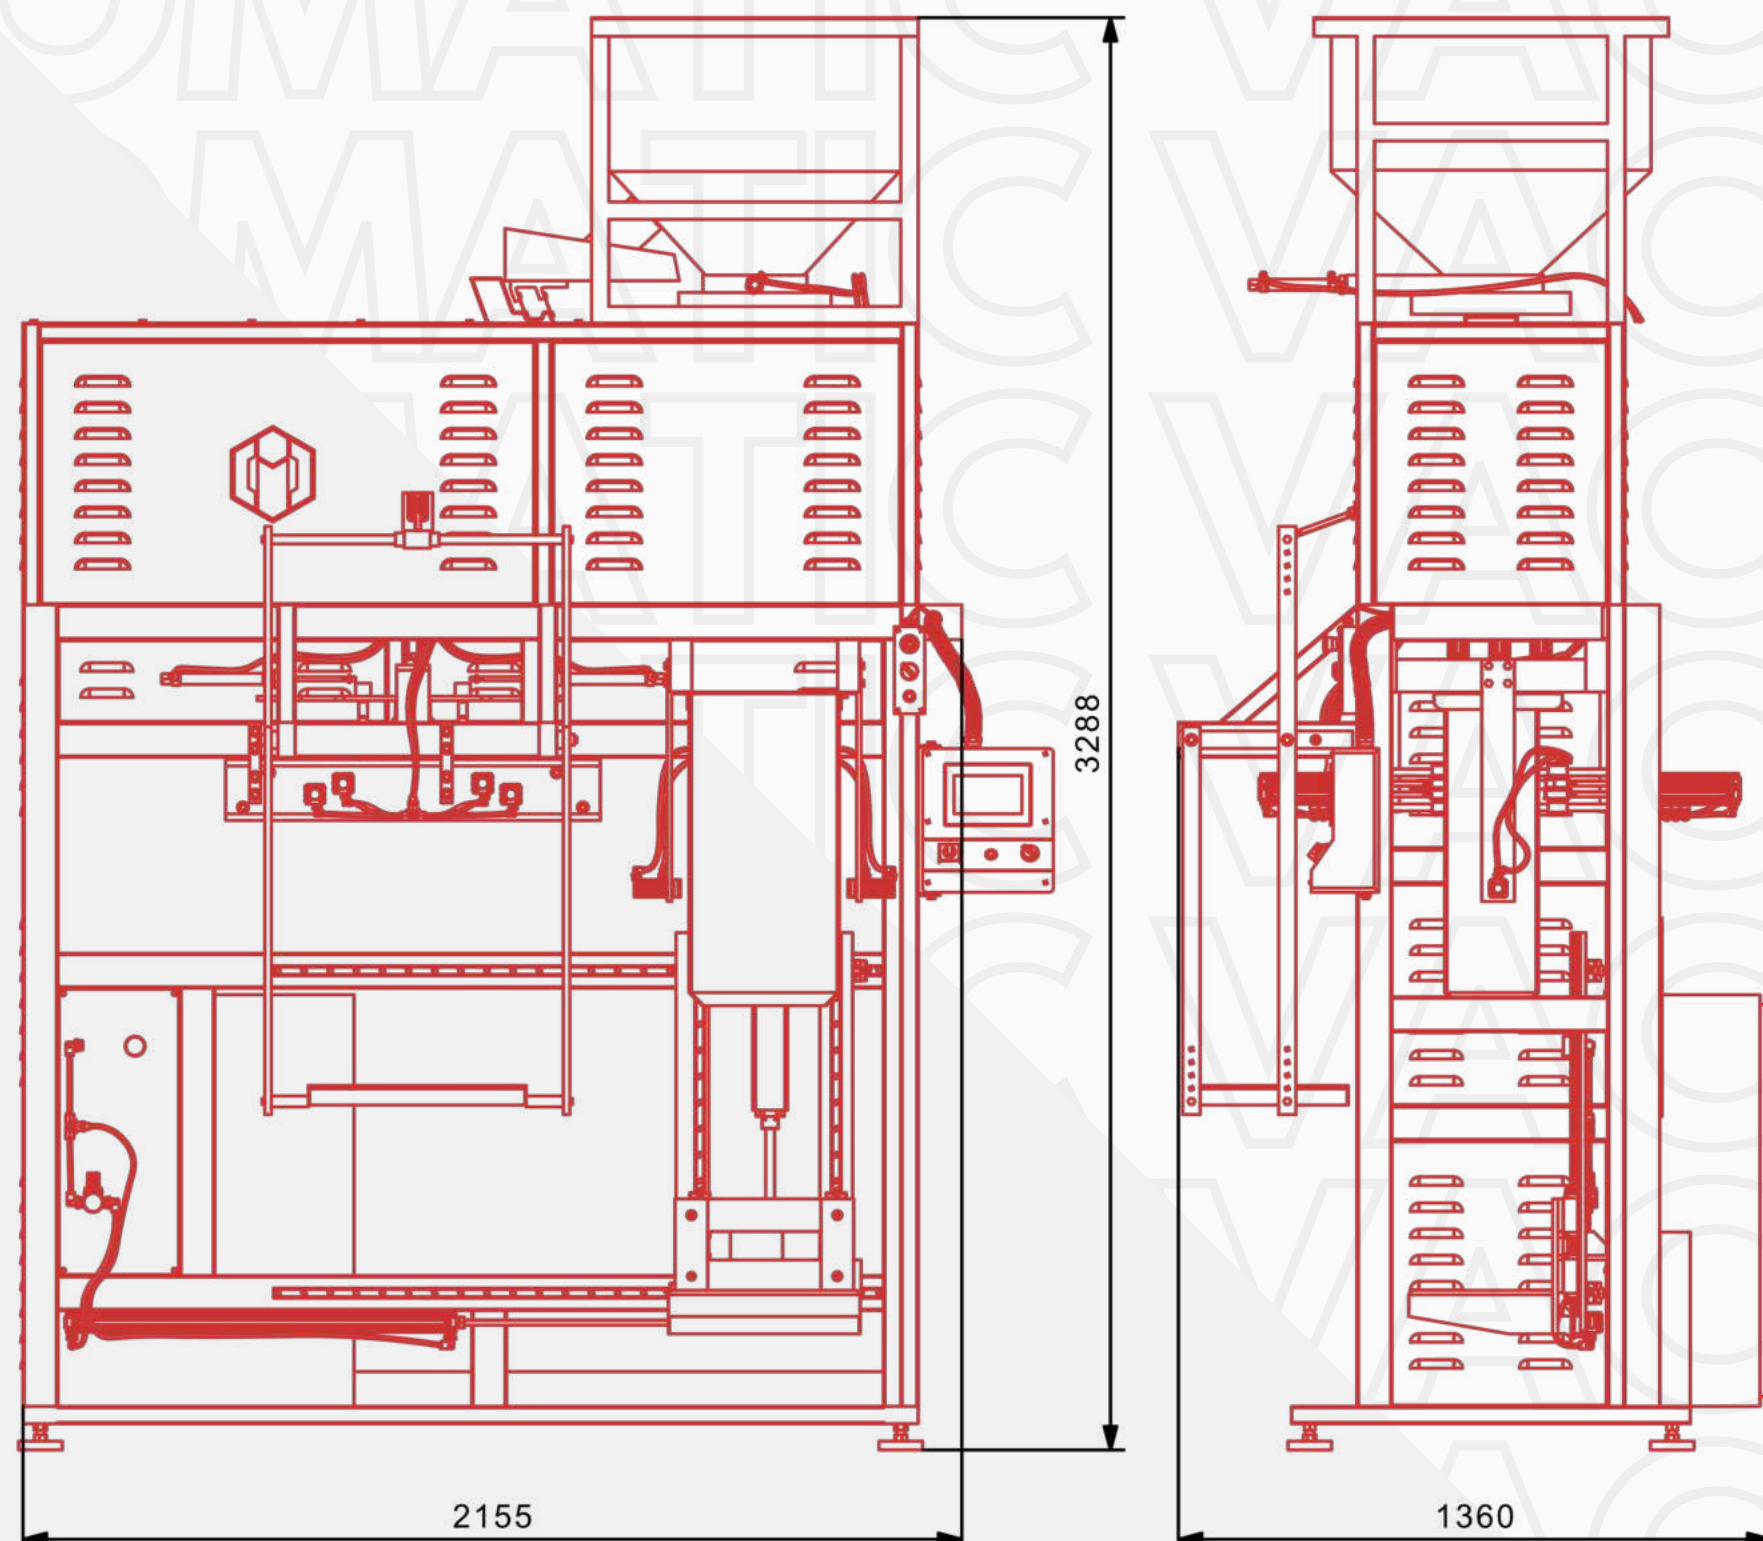

Easy Maintenance

With a focus on convenience, our machine is engineered for easy maintenance, featuring accessible components and straightforward service procedures.

Rapid Tech Support

Benefit from our 24*7 rapid tech support, offering prompt assistance and solutions to minimize downtime and keep your machine running smoothly.

DIMENSIONS

TECHNICAL SPECIFICATIONS

Former Size	10 to 25 Kg.	Weigher	In built Weigher
Product	Granules & any free flow product	Compressor Required	5 H.P.
Sealing Length	762 mm	Air Required	6 – 7 Bar
Sealing Width	8 mm	Pneumatic Parts	Janatics and Airwin
Sealing Type	Pneumatic	M.O.C.	M.S. (Powder Coated) & Contact Parts (S.S. 304)
Vacuum Pump	Dicon (LPM 65)	Machine Length	~2155 mm
Vacuum Operation	Nozzle	Machine Width	~1380 mm
Control System	Pneumatic & Electronic (Fuji Make)	Machine Height	~3388 mm
Power	3 Phase (440 v AC)	Machine Weight	~400 Kg
Output	2-3 Bags / Minute
