

BULK WEIGHING MACHINE

**High Production
Output**

**Secured
Sealing**

**Hygienic & Safe
Design**

**Pneumatic
Operations**

**Consistent
Quality**

**International
Standards**

A Bulk Weighing Machine is used to accurately measure and weigh large quantities of bulk products, such as grains, powders, chemicals, and raw materials, in industrial settings. The machine features a high-capacity scale and automated controls to ensure precise weight measurements, improving efficiency in packaging and production lines. The system reduces manual labor and enhances productivity by streamlining the weighing process.

The Bulk Weighing Machine features high-capacity weighing, precise measurement for large quantities, automated controls for efficient operation, robust construction for handling heavy loads, and quick integration into production lines to reduce manual labor and improve productivity.

It is commonly used in industries like food, pharmaceuticals, chemicals, and agriculture, where bulk material handling and accurate weighing are essential.

Easy to Operate

Designed with simplicity, our machine features an intuitive smart interface and straightforward controls, ensuring easy operation for all experience levels.

Easy Maintenance

With a focus on convenience, our machine is engineered for easy maintenance, featuring accessible components and straightforward service procedures.

Rapid Tech Support

Benefit from our 24*7 rapid tech support, offering prompt assistance and solutions to minimize downtime and keep your machine running smoothly.

DIMENSIONS

TECHNICAL SPECIFICATIONS

Model	WeigCon -Bulk	Bag Handling	Conveyor Based
Application	Weighing Scale	Air Compressor Required	3 HP
Packing Capacity	25 kg to 50 kg (Depend on Product)	Air Required	6-7 Bar
Weighing Speed	3 to 4 (Packs / Min) Depend On Products	Power Supply	220 V (Single Phase)
Actuator	Pneumatic	Dimension	~ 2030 x 670 x 2065 mm
Operation Panel	7 Inch Touch Screen	Sealing	Motorized Stitching (Optional)
Hooper Volume	100 Kg (Can be Customized)	Pneumatic	SMC Make
Control System	MCU - Fuji	Error in Weight	+/- 2%

*The above mentioned values are indicative and can be modified at any time at the discretion of the company.
