

CUP FILLER

**Accurate
Volumetric Filling**

**Consistent
Quality**

**International
Standards**

**Easy to
Operate**

A Cup Filler Machine is designed to fill powdered, granular, or any product using a cup mechanism. It accurately measures the product into each pouch, ensuring uniform fill levels and minimal spillage. Commonly used in industries like food, beverages, and chemicals, this machine enhances packaging efficiency, improves product integrity, and is capable of high-speed operations. The machine is ideal for a wide range of products, from snacks and spices to detergents and pet food.

Cup Filler Machine include adjustable cup sizes for different product volumes, high-speed operation, and precise filling accuracy. It also offers easy pouch handling and quick changeovers for various product types.

It can pack a wide variety of products including snacks, cereals, flour, sugar, spices, powdered beverages, detergents, fertilizers, powdered medicines, vitamins, and cosmetics such as powders.

Easy to Operate

Designed with simplicity, our machine features an intuitive smart interface and straightforward controls, ensuring easy operation for all experience levels.

Easy Maintenance

With a focus on convenience, our machine is engineered for easy maintenance, featuring accessible components and straightforward service procedures.

Rapid Tech Support

Benefit from our 24*7 rapid tech support, offering prompt assistance and solutions to minimize downtime and keep your machine running smoothly.

DIMENSIONS

TECHNICAL SPECIFICATIONS

Hopper Capacity	15 Ltr (Depend On Product)	Contact Part	Stainless Steel
Filling System	Volumetric Filling	Power	220v AC (Single Phase)
Quantity to be Filled	10 Gram To 1000 Gram (Depending On Product)	Operation	Measured Volume Based
Machine Weight	~ 150 Kg	Product Compatibility	Free Flow & Powdered
Structure	M.S. Duly Powder Coated	Error In Weight	+ /- 2%
