

DATES CLEANING MACHINE

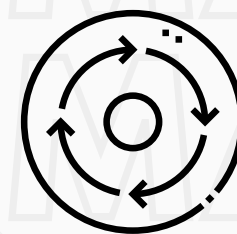

Convenient Design

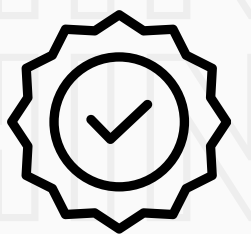

Hygienic & Safe Design

Air Drying

Consistent Quality

Accurate Polishing

The dates cleaning machine is designed to efficiently remove dirt, debris, and impurities from dates, ensuring a high-quality product. Its advanced cleaning technology combines gentle handling with effective sanitation, preserving the integrity of the fruit. With adjustable settings, it caters to various date sizes and types, making it versatile for different operations. This machine not only enhances product quality but also boosts operational efficiency, reducing labor costs and improving overall productivity.

The dates cleaning machine offers efficient sanitation, preserves fruit quality, reduces labor costs, and enhances overall productivity in the processing line.

The dates cleaning machine is used in food processing facilities to effectively remove dirt, impurities, and contaminants from dates, ensuring high hygiene standards and product quality.

Easy to Operate

The Single Die Lata Machine operates on a user-friendly control system, allowing for precise adjustments and real-time monitoring.

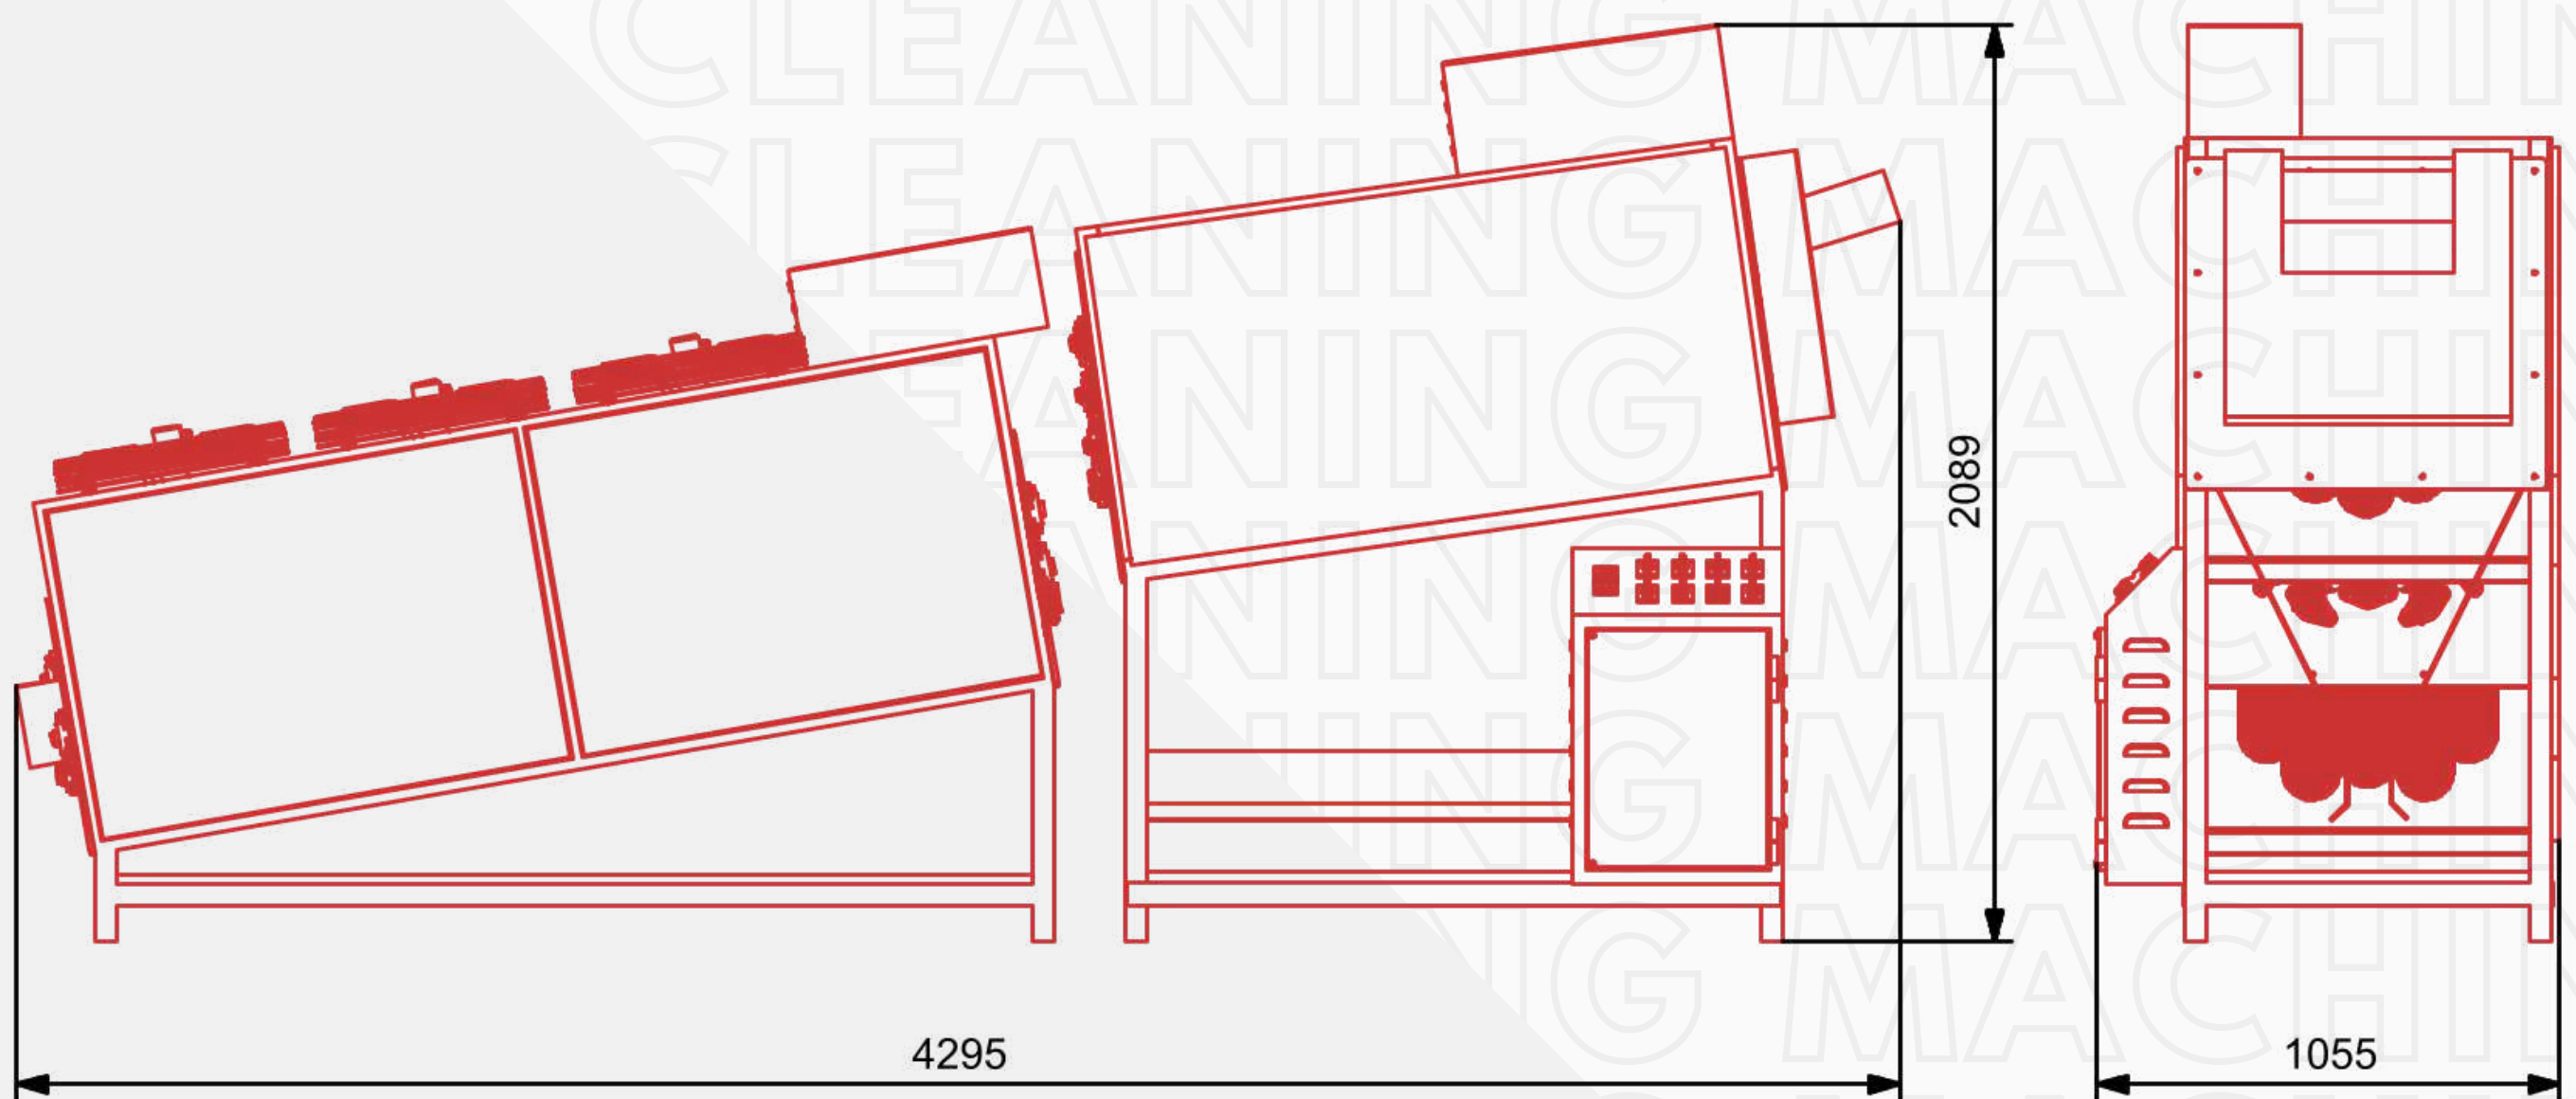

Easy Maintenance

Maintain the Single Die Lata Machine by regularly cleaning, lubricating moving parts, inspecting components, and ensuring proper operator training.

Rapid Tech Support

Benefit from our 24*7 rapid tech support, offering prompt assistance and solutions to minimize downtime and keep your machine running smoothly.

DIMENSIONS

TECHNICAL SPECIFICATIONS

Production Capacity	50 kg/min	Control System	Fuji
Hopper Size	100 kg	Water Consumption	20 Liter / 100 Kg
Conveyor	"Z" Elevator (Optional)	Cleaning Equipment	Plastic Roller Brush
Power Consumption	4 H.P.	Roller Brush Size	~ 2185 mm
Electric Motor Make	ABB	Machine Length	~ 4295 mm
Body Material	Stainless Steel	Machine Width	~ 1055 mm
Cleaning Mechanism	Water Jet Spray	Machine Height	~ 2089 mm
No. Of Brush Roller	6 Nos.	Machine Weight	~ 900 Kg
