A Flow Wrap Pouch Packing Machine is an automated system used for efficiently packaging products in flexible film pouches. It feeds items into a continuous roll of film, which is then sealed and cut to form individual packages. Ideal for products like snacks, confectionery, and small goods, the machine ensures precise sealing, high-speed operation, and versatility with adjustable settings for different packaging requirements.

The Flow Wrap Pouch Packing Machine features high-speed operation, precise sealing, adjustable film length, automatic feeding and cutting, versatility for various products, and a user-friendly control panel for efficient and durable packaging.

The Flow Wrap Pouch Packing Machine is commonly used in the food, confectionery, pharmaceutical, and consumer goods industries for packaging snacks, candies, biscuits, and small products.

Easy to Operate

Designed with simplicity, our machine features an intuitive smart interface and straightforward controls, ensuring easy operation for all experience levels.

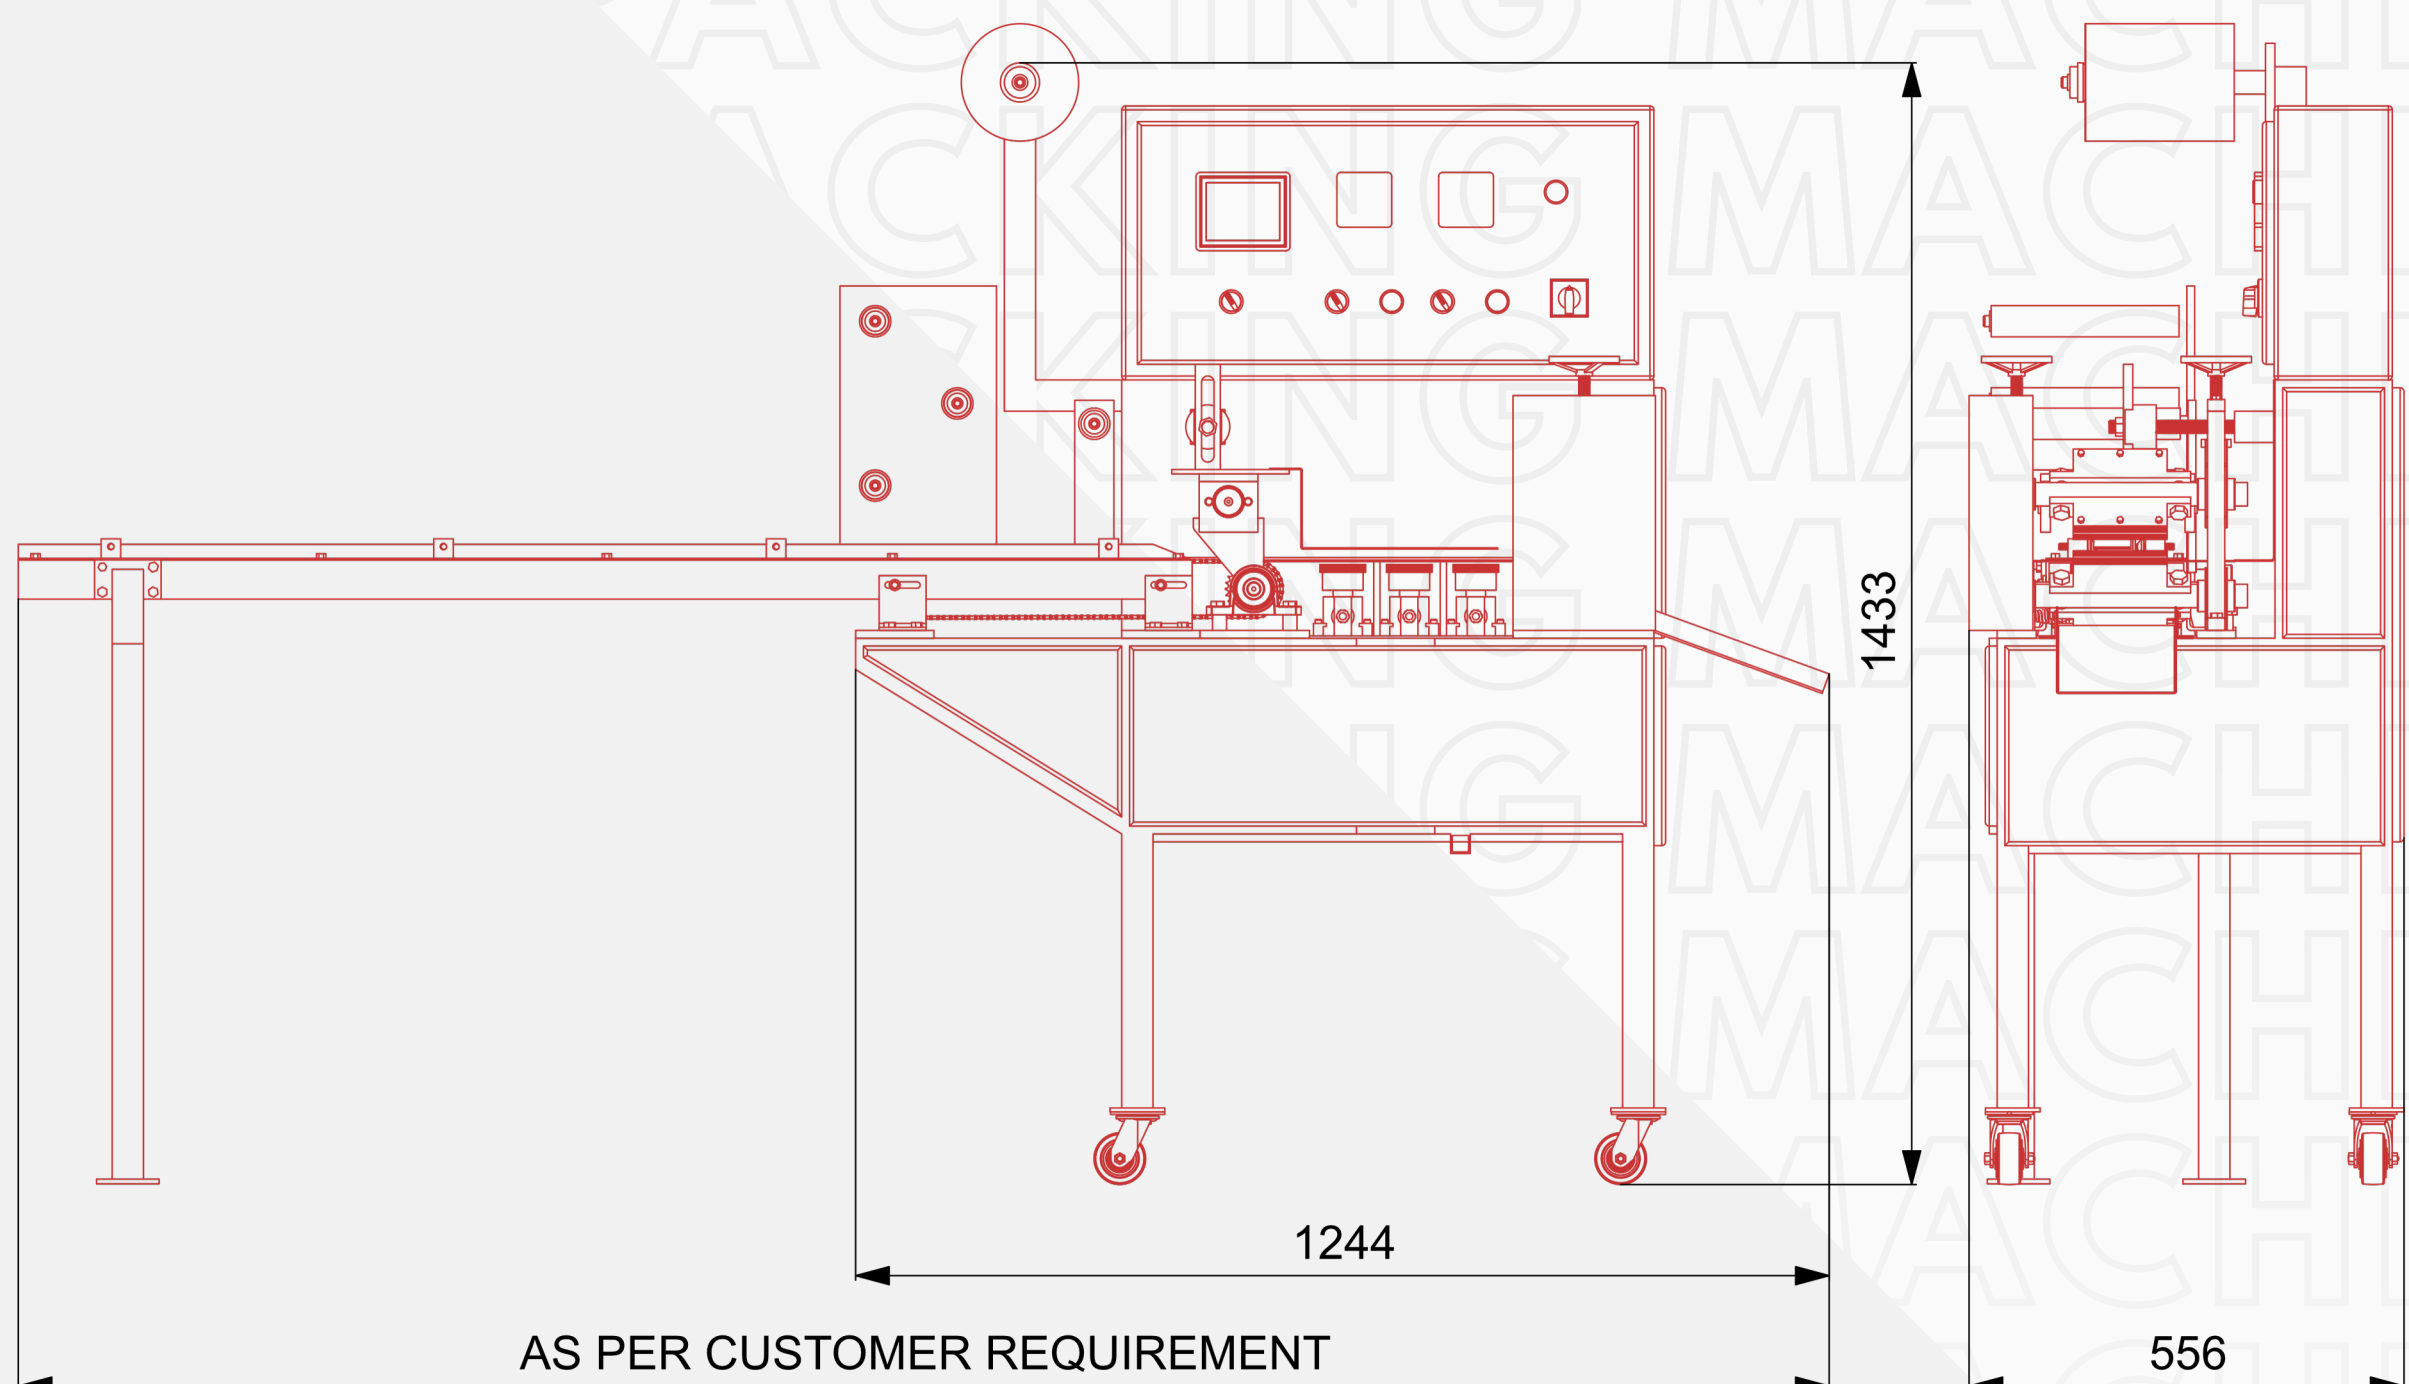

Easy Maintenance

With a focus on convenience, our machine is engineered for easy maintenance, featuring accessible components and straightforward service procedures.

Rapid Tech Support

Benefit from our 24*7 rapid tech support, offering prompt assistance and solutions to minimize downtime and keep your machine running smoothly.

DIMENSIONS

TECHNICAL SPECIFICATIONS

Machine Dimensions	1244 x 560 x 1440 (L x B x H), Conveyor can be customized
Wrapping Material	Heat-sealable films, laminated films
Product Size Range	Length: 50–600 mm, Width: 20–250 mm, Height: 5–120 mm
Film Roll Specifications	Max Width: 600 mm
Machine Speed	Up to 400 packs/min (Depends on Product)
Sealing Configuration	Center seal, pillow pack
Power	220–440 V AC, 50/60 Hz
Power Consumption	2-5 kW
Control System	PLC-based with touchscreen HMI
