Sealing**

**Advanced Gas
Flushing**

A Rotary Tray Sealer is a semi-automated packaging system that uses a rotating table to seal trays with a film cover. It allows for efficient sealing with the ability to handle multiple tray sizes, ideal for small to medium production runs. It removes air from the package to extend shelf life by reducing exposure to oxygen, preserving freshness and preventing spoilage.

The Rotary Tray Sealer features quick-change tooling, enabling fast and easy transitions between different tray sizes for versatile production needs.

The application is to preserve foods like sweets, dairy products, meat, seafood, dates, dry fruits & convenience foods etc.

Easy to Operate

Designed with simplicity, our machine features an intuitive smart interface and straightforward controls, ensuring easy operation for all experience levels.

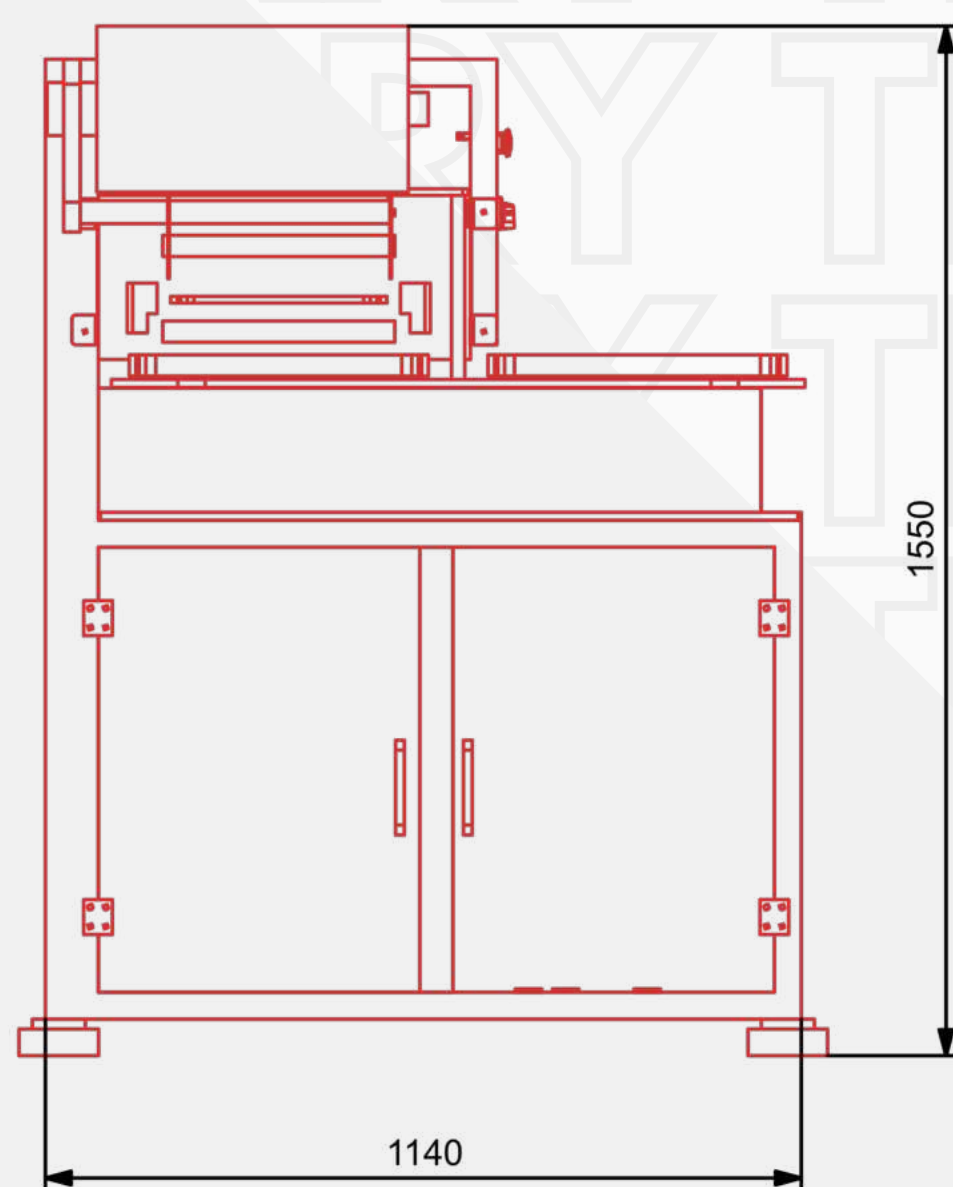

Easy Maintenance

With a focus on convenience, our machine is engineered for easy maintenance, featuring accessible components and straightforward service procedures.

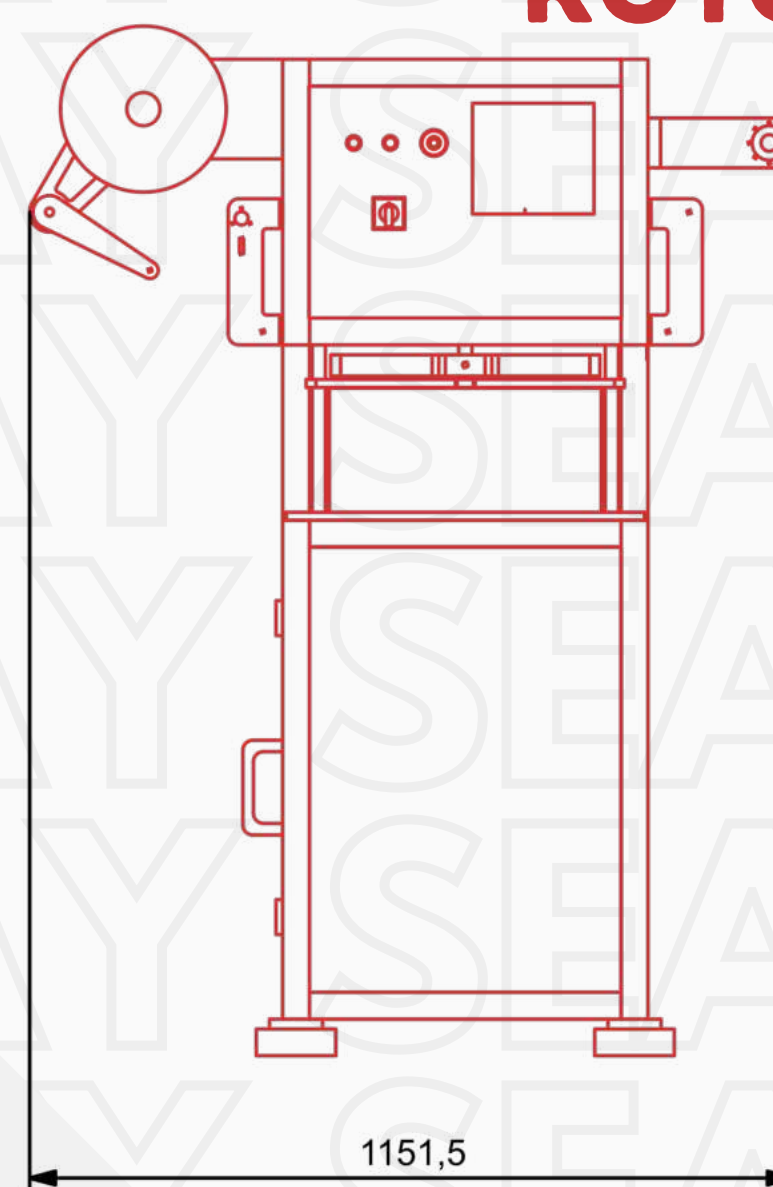

Rapid Tech Support

Benefit from our 24*7 rapid tech support, offering prompt assistance and solutions to minimize downtime and keep your machine running smoothly.

DIMENSIONS

ROTOCON 4

TECHNICAL SPECIFICATIONS

Production Capacity	Up to 5-6 Cycles Per Minute	Mold Matrix	4 Trays (For 200/250 Grams) 2 Trays (For 500 Grams) 1 Tray (For 1000 Grams)
Products	Meats, Sweets & Savories, Bakery	Total Power	4 KW / 440V AC / 3 Phase
Upper Film	Printed / Plain	Require Air Compressor	3 H.P.
Tray Material	Rigid (Pre-Formed)	Require Air Pressure	6 To 7 Bar
Tray Shape And Size	Customized	Machine Length	~1140 mm
Machine Construction	Stainless Steel 304 & Aluminum Assemblies	Machine Width	~1152 mm
Vacuum Pump	Busch / Becker	Machine Height	~1550 mm
Control & Command System	PLC Touch Screen (Fuji)	Machine Weight	~ 300 Kg
Application	MAP, Sealing
